

An aerial architectural rendering of a courtyard. The courtyard is paved with light-colored stone tiles. In the center, there is a wide staircase with a dark metal railing. On either side of the staircase, there are two large, rounded green trees. Several small figures of people are scattered throughout the courtyard, some walking and some standing. The background shows a building with a grid-like facade and a series of diagonal lines. The word "PORTFOLIO" is written in large, bold, black capital letters across the center of the image, underlined.

UNDERGRADUATE INTERIOR
DESIGN PORTFOLIO

HELLO!

I'm Riya Rathod, a fourth-year Interior Design student passionate about creating functional and engaging corporate and retail spaces. My design approach blends creativity with practicality, using 3D visualisation to craft efficient, visually impactful interiors. I value sustainable materials and thoughtful design that enhance user experience while promoting responsible, future-focused spaces.

EDUCATION:

Bachelor's of Interior Design at Yorkville University, Toronto, ON
(2022 - Present)

SOFTWARE PROFICIENCY:

Autodesk AutoCAD, Autodesk Revit, Adobe Photoshop, Sketchup, V-Ray, Twinmotion, D5 Rendering, Microsoft Office Tools

INTEREST:

Space Planning & Layout, Client-Centered Design Approach, Materials & Finishes Selection, 2D Drafting & 3D Modeling, Presentation Boards & Mood boards & Team Collaboration

LANGUAGES:

English
Hindi
Gujarati

**BLOOM: Healthy grow,
happy glow, with bloomy
flow**

DATE: March, 2023

Academic Project

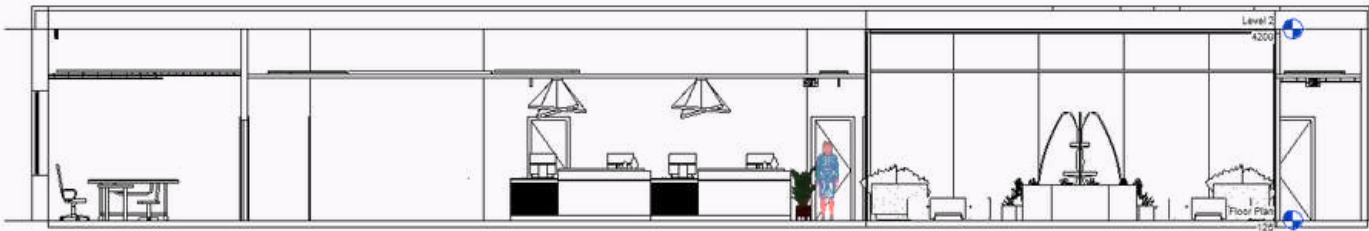

MOODBOARD

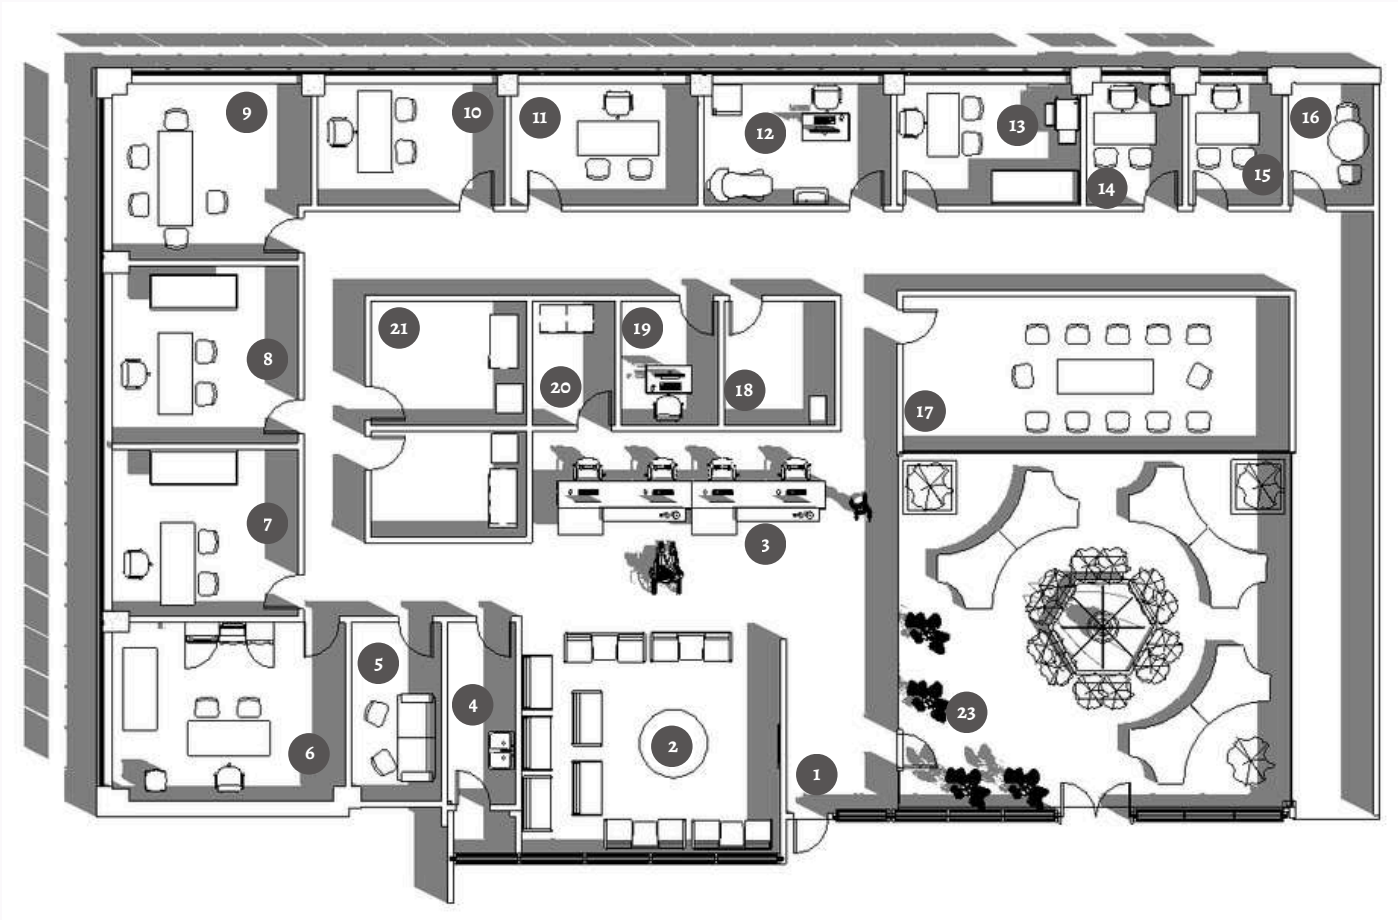

CONCEPT

Healing through the charging impetus of flowers ' growth, renewal, and hope. Soft forms, natural light, and soothing colours provide a touch of nature-nurtured tranquillity upon which trousers can unwind and let go. A consciousness of beauty and care into which healing can flow. The sanctum away from the hospital, named **BLOOM**, nurtures the spirit to flourish.

Academic Project

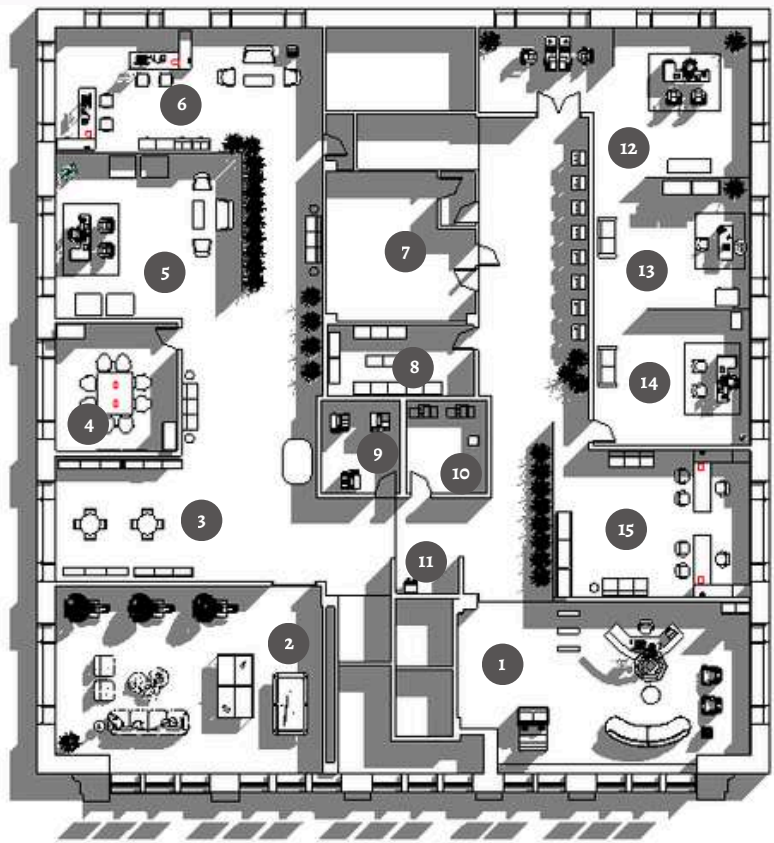

MOODBOARD

CONCEPT

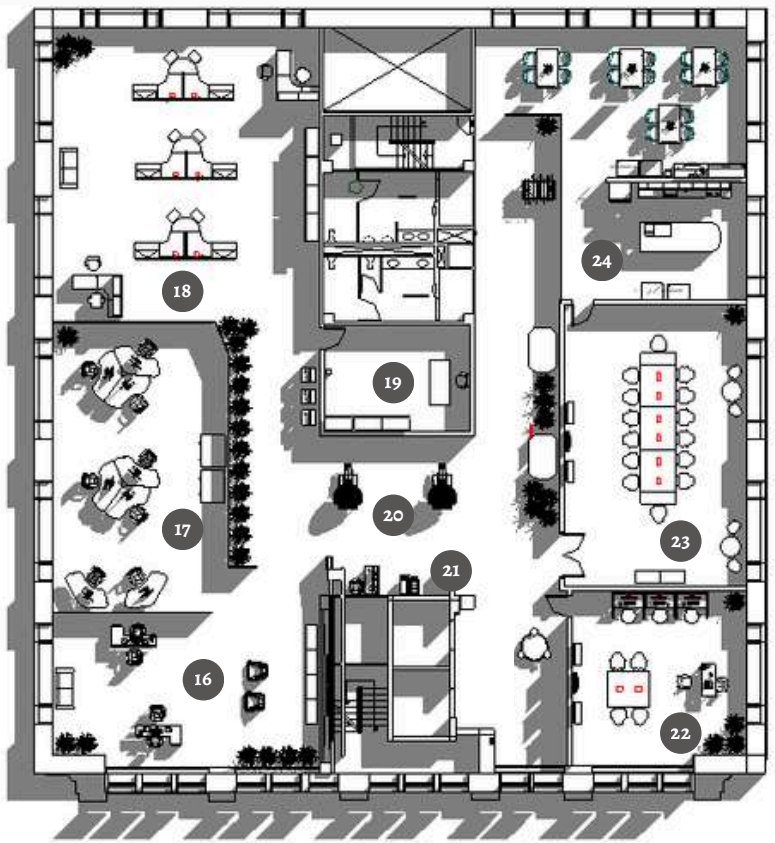

At Color Core Studio, comfort is never an option; it must be considered a prerequisite for establishment. Intensely colored interiors breathe a sense of life into the space, whereas the neutrals allow a calm air to pervade. Candlelight, in itself, christens a spot with contrast; dawn, opposite in temperament, bathes everything in calm. With a little modular magic and zoned flow, the space adapts as fast as the speed of operating minds-one moment it's working together, deep focus, the next. We keep it inclusive, fun, and alive. Think of it as a vibe-powered ecosystem where imagination runs the show, and design is ready to follow at its will!

MOODBOARD

CONCEPT

Light, airy, natural, and warm elements come together to help create a beautiful, open, comfortable, cozy, and inviting space for everyone. The design enhances natural light and highlights a soft, moody palette of off-whites, beiges, and muted greens to invoke a sense of calm and balance. By using organic materials and smooth textures, the design incorporates elements that reflect a relaxed and organic atmosphere. Gentle textures such as light woods and natural fabrics help reflect and connect to the natural environment while still maintaining a modern simplicity. Subtle contrasts and layered lighting bring depth and warmth without overpowering the serene atmosphere. The overall feeling is relaxed and harmonious, encouraging comfort, connection, and ease within the space. Natural tones and gentle contrasts create a sense of warmth without overwhelming the simplicity of the space.

FLOAT SANCTUARY: EMBODYING CALM

Academic Project

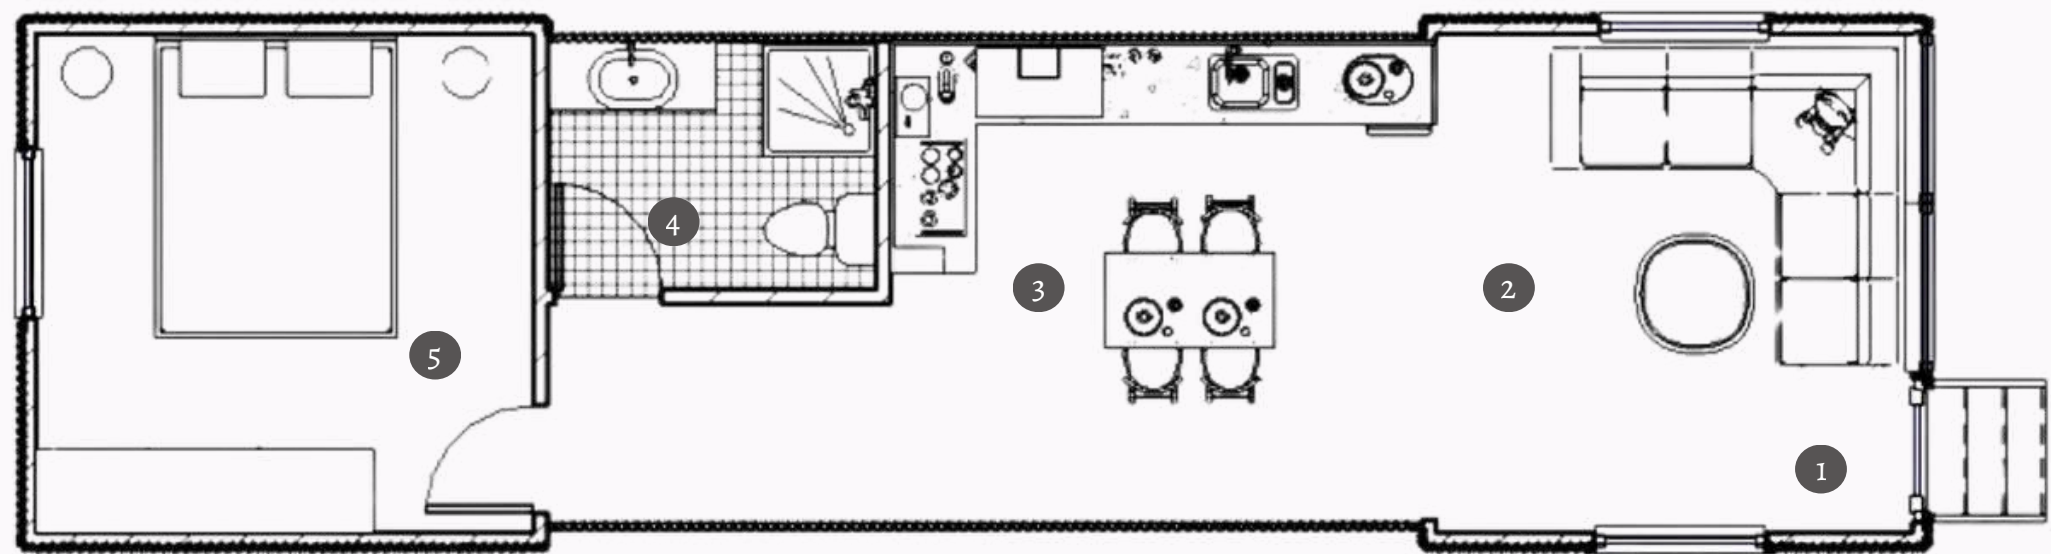

ASSEMBLY SEQUENCE

CONCEPT

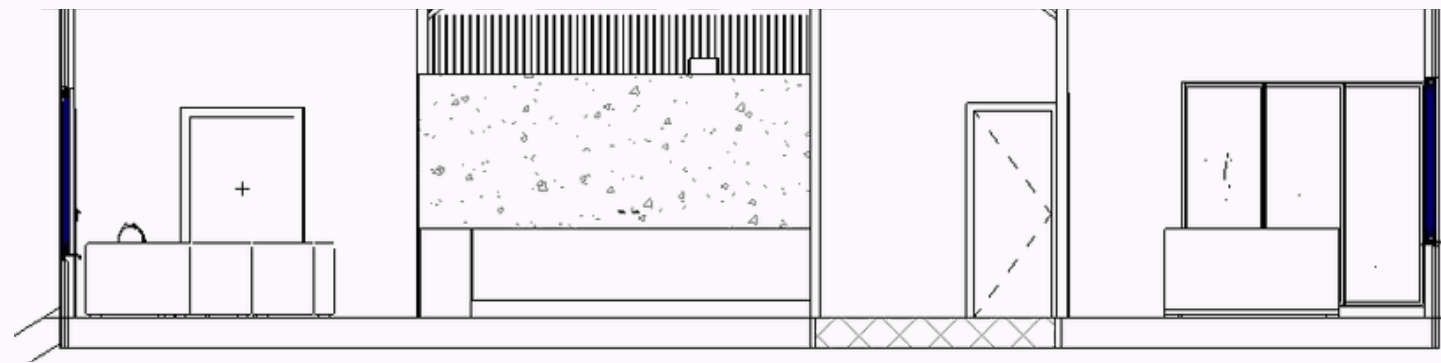

The project showcases physical movement & primarily an art of transformation, a series in which the space shifts from openness to retreat, from shared rhythm to solitary privacy. The flexible and dynamic design encourages people to retreat from the world and experience its subtlety through their presence, wherever they may be. space unfolds as a moment of pause, carrying within its form traces of memory and movement. It's a lively circuit of transitions that showcase the human resilience of fluidity. By its ability to adapt subtly, the design regains the dignity of being in doubt and turns the language of impermanence into that of continuity.
